

# Audition Guide - Drums

In the folder for each song you will find a video tutorial, an audition track, and for some songs a reference track. Use the reference track (the exact drum part on the recording) and the video tutorial to learn the song. After learning the song, practice with the audition track. The audition track is what you will be playing along to for your audition.

Please take note of the notes for each song below to guide you in what we are looking for in your audition.

\*Since this is copyright material, please use the download the mp3s and charts only for the purpose of learning them for your audition. We have licenses that covers us for the use/distribution of charts and recordings only for that intended purpose.
